

Broadband Metallic Mirror 450nm-700nm

1 Brief description

URL: <https://www.newport.com/p/10D20ER.1>

Newport metallic mirror, 25.4 mm diameter. ER.1 stands for enhanced aluminium coating - a dielectric is deposited over aluminium coating for more reflectance. Average > 93% from 450-700nm.

2 Technical Specifications

Wavelength region	VIS
Design wavelength	587.6nm
Substrate	N-SF5
Coating	MgF ₂
